Three White Men and One Negro Arrested, and Five Other Men Are Indicted at Meeting Tuesday.

### GAMBLING EQUIPMENT SHOWN GRAND JURORS

Solicitor Boykin Says if Poole Has Any Charges to Make Against Him, Grand Jury Waits His Evidence.

The finding, by the grand jury, of four of them the request of Solicitor John Boykin that Chief of Detectives Umar Poole make public the name of the officers participating and the dates on which they raided the road street and the Central avenue addresses, mentioned by Mr. Poole in his recent statement to the newspapers, were the outstanding developments of yesterday in the series of events which have followed upon the sensational raids made by a solicitor and his assistants Saturday on alleged gambling dens in this city. The men who were arrested were R. B. Kelley, Lonnie Alkhead L. P. Coe, and one negro, Amos Lee. The names of the other men will not be given out until they are arrested.

Following one of the latest sessions of the grand jury which in the county at which the indictment had been returned against the various establishments, the alleged gamblers were exhibited to the jurors and more than a score of witnesses were examined behind closed doors. Solicitor Boykin stated that he would like to have Chief Poole name the officers who have ever raided either the Broad street or the Central avenue place and the dates upon which such raids were made. Although Mr. Poole extended through the press relation to Chief Poole to appear before the grand jury at its meeting today and present charges made the chief against Solicitor Boykin in which he claimed that the chief certain men who are charged with gambling, arrested by the chief, and fined in the be court had never been carried a higher court, the chief did not appear.

**Asks Poole to Make Good.**  
After the raids made on the alleged vice tapping dens at 25 Peachtree, the office at 35-1-2 B street and 49-1-2 Central avenue the solicitor Saturday and the statement from the solicitor that city detectives were not doing "duty," Chief Poole replied in a "to the public" that his men had raided the Broad street and Central avenue places on several occasions. Now the solicitor asks that the chief name the man who made the raid and the dates and any other information which he has at hand on the matter.

Kelley, aged 49, Coe, 39 and Allen, 37, are out on bond. Bonds of the first two named were fixed at \$5,000 each while that of Allen was fixed at \$1,000. Lee's bond was fixed at \$5,000, but he was unable to pay it and is now in three charges one each of running a gaming house at the Central avenue and the Broad street addresses, and one of vagrancy. Coe, Allen and Lee are charged with operating a gaming house on Central avenue and of vagrancy. Witnesses who appeared against the alleged proprietors of the gaming houses included many who called at the Central avenue place after the solicitor and his force had taken charge. The visitors came in "as usual" without knowing that the establishment was being run by the county authorities.

## INCREASED FARES GIVEN ON ATLANTA TO MARIETTA LINE

Patrons Will Be Required to Pay 42 Cents and Commutation Books Will Be 20 Per Cent Higher.

### PETITION OF EXPRESS COMPANY IS REFUSED

Request of the Savannah Lighting Company for Increased Light Rates Is Denied by Railroad Commission.

Increases of one cent in fares for each of the seven zones between Atlanta and Marietta, making a total fare of 42 cents, and an increase of 20 per cent on commutation books of 54 tickets were granted the Atlanta Northern Railway company, a part of the Georgia Railway and Power company, while the petition of the American Railway Express company for an additional increase of 15 per cent in all intrastate rates was denied late Tuesday afternoon by the state railroad commission.

The hearing of the petition of the Atlanta Northern Railway company was held several weeks ago, the plea for increases being based upon increased cost of materials and labor. The original total fare between Atlanta and Marietta was 35 cents, while the price of commutation books was \$7. With the increase of 20 per cent the books will now sell for \$8.40 each.

**Express Petition Denied.**  
Following the order of the railroad commission several months ago, granting the American Railway Express company a general increase of 15 per cent in rates, another petition was filed by the corporation asking for an additional 15 per cent on the ground that the United States railroad labor commission granted a large increase in wages.

This action of the express company created much comment at the time, and it was later pointed out by the petitioners that the interstate commerce commission had granted an additional 13-1-2 per cent to the original 13-1-2 per cent on account of the labor board's decision. The petition of the corporation was, therefore, amended so as to conform with the decision of the interstate commerce commission.

The state railroad commission, however, did not follow the action of the interstate commerce commission regarding the additional increase, and the petition was denied. R. C. Alston and J. P. Webster represented the petitioners at the hearing.

**Savannah Petition Denied.**  
The petition of the Savannah Lighting company for increased rates was also denied.

## Theft of Liquor Laid to Officers By Former Owner

Two Officers and Alleged Confederate Are Indicted, and True Bill Found Against Man Making the Charges.

Charged with stealing 87 quarts of rye whiskey in an alleged "fake seizure" of an automobile carrying liquor, Police Officers Lon Terry and O. M. Howell and Grif Freeman were indicted by the Fulton county grand jury Tuesday for simple larceny, while the men whose booze was taken, Clarence Hart, who was a witness, was also indicted for having "spirituous liquors" in his possession.

Terry and Howell are still members of the police force, but a special called meeting of the board of police commissioners to try the two men on charges preferred by Hart has been called for Wednesday night.

According to Hart, he had promised to sell Grif Freeman a large quantity of rye whiskey. Freeman, he says, came to his house at the corner of West Peachtree and Hunnicutt streets in an automobile to get the liquor, and loaded nine cases of it in the car. Just as he had finished loading, he claims that Officers Terry and Howell appeared upon the scene, told him to "beat it," put two cases of the liquor in their own car, and told Freeman to drive on. The police car following the one driven by Freeman.

Hart makes the charge that the two cars proceeded to Bellwood section, where Freeman was given his freedom and the seven cases of liquor, while the police took the remaining two cases to the police station.

## Prisons Are Packed As British Tighten Cordon About Dublin

Determined Drive by the Military Authorities to Round Up Every Irishman Suspected of Republican Sympathies.

### BARBED-WIRE BARRIERS BLOCKING THE STREETS

And No Person Allowed to Pass Without Being Examined—Atmosphere of Distrust and Suspicion Noticeable in the Irish Capital.

Dublin, November 23.—The vigorous activities of the authorities leave little doubt that determined and concerted efforts are being made to round up republicans suspected of being active in outrages. The military forces are tightening the cordon about Dublin and gradually working in toward the center, as was done during the Easter rebellion of 1916. It is believed a number of republican leaders in the provinces, finding the pursuit too hot, have taken refuge in Dublin. The total arrests to date are understood to be huge, but the government refuses to divulge the figures. Dublin castle authorities, however, admit the prisons are so full that it has become necessary to utilize the castle itself, and that it is a lumber room in the old detective quarters of the castle that Peter Clancy and two others were shot yesterday.

All train services in and out of Dublin were resumed this morning after the city had passed a quiet night following the bloodshed and the rain of the previous night. The curfew law was strictly obeyed. The night, however, did not witness any let-up in the work of the military, who were continuing their minute search of the city, presumably for suspects in connection with Sunday's assassinations. Before the curfew hour several of the streets were surrounded by barbed-wire barriers and the soldiers examined all persons passing.

Strong military patrols manned by four companies of the British army were in the city of Dublin last night. All avenues of egress and ingress were closed and even persons holding permits were not allowed to pass the lines drawn through the outskirts of the city. Reports reaching the center of Dublin during the evening indicated that virtually the whole military establishment in this district of Ireland was employed in maintaining this cordon. Late in the evening, the strict curfew of the city was made absolute the paralysis of traffic in and out of Dublin, which was begun when orders were issued on Sunday suspending all railway service.

**Raid on Soldiers.**  
In the meantime, soldiers were conducting scores of raids throughout the city, reports reaching newspaper offices showing that all classes and types of residences and other premises were being searched. From early in the morning this work went on, and reports came in of terror and confusion, which were attended by more than the usual amount of incidental clashes. It seemed certain that many casualties had marked the day's activity.

The thoroughness with which the cordon about the city was drawn and raids conducted, led those in close touch with the situation to believe the military authorities were determined to arrest the parties responsible for the murder of fourteen officers on Sunday. Streets in the downtown section of Dublin were thickly packed early in the evening by small knots of citizens who were discussing the situation and expressing fear that the reign of terror had not yet ended. As a consequence of the advancement of the curfew law to 10 o'clock, however, the crowds soon dwindled and a little after 9 o'clock there was scarcely a person abroad.

An atmosphere of distrust and suspicion was noticeable on every side yesterday and last night. Travelers on trains, pedestrians in the streets and loungers in hotel lobbies showed reluctance to venture any opinions relative to the possible consequences of Sunday's tragic events. Above all, no one would give any indications as to his personal sympathies. It was universally agreed, however, that the situation was most delicate, and the spark which might produce the long-repentant conflagration was momentarily expected.

**The Football Park Horror.**  
Crowd forces which went to Croke park Sunday afternoon in an effort to arrest alleged gunmen, were fired upon by pickets, and as a result of the resultant fighting, the great crowd inside the park stampeded, said a statement issued at Dublin.

## LEAGUE REVISION WAITS ON ACTION OF UNITED STATES

No Changes in Covenant Likely to Be Considered Until the Views of Harding Are Known.

### COVENANT CRITICISED BY SOME DELEGATES

But It Is Generally Agreed That Assembly of the League Should Wait Proposals From America.

Geneva, November 23.—(By the Associated Press).—There will be no amendments to the covenant of the league of nations at this session of the assembly of the decision of committee No. 1—that on general organization—which has been confirmed in full session.

Arthur J. Balfour, chairman of the committee, suggested in committee meeting that it was too early to draw conclusions as to the work of the league or to form an idea as to how the covenant may be improved. He proposed that the committee recommend the appointment of a special committee to consider proposed amendments and report to the next meeting of the assembly.

The Scandinavian delegates on the committee immediately of amendments they proposed, but they were outvoted. The South American delegates accepted Mr. Balfour's suggestion all the more readily, because they are of the opinion that any amendment of the covenant should await proposals that are expected from the United States after President Harding's consultations on the subject. They declared it would be entirely out of order to revise the opinion in the absence of one of the most important nations of the world.

The committee on the international court decided to send a letter of thanks and congratulations to Elihu Root and other delegates of The Hague conference. This is as far as they have got in their work. Antonio Humez, head of the Chilean delegation and chairman of the committee on admission of new members, told the Associated Press today that his committee already was at work and hoped to make an early report.

## OPEN CRITICISM OF THE COVENANT IN THE ASSEMBLY

BY A. E. JOHNSON.

Geneva, November 23.—The first open criticism of the league of nations covenant, as now written, was made in the assembly Tuesday and has resulted in Article 18 being submitted to the council for an expert interpretation by a jurist commission. This first question of the inviolability of the covenant centers on the article which was designed to wipe out secret treaties, and bring diplomatic agreements into the open. It provides that every treaty or international engagement must be registered with the league and published.

## PREACHER COMING TO ATLANTA PEN UNDER MANN ACT

Harrisburg, Pa., November 23.—R. D. Edwards, a Methodist minister who was recently secretary of the M. C. A. at Staunton, Va., was convicted in the federal court of violating the Mann act and sentenced to four years imprisonment in the federal prison at Atlanta.

Edwards, who is a married man and the father of two children, was arrested at Staunton, Va., on last August. They were married in Cincinnati and later were apprehended in Louisville.

Miss Bailey declared Edwards convinced her he had obtained a divorce from his wife, and it was on that assumption that she married him.

**"King of Moonshiners"**  
Caught With Whisky Again, Say Police

John Henry Harden, 50-year-old "King of the Moonshiners," as he is known to his associates, federal officers and the county police, who was convicted in the federal court several weeks ago of attempting to bribe Prohibition Agent Dixon and who is now out on bond pending motion for a new trial, was Tuesday night arrested by Lieutenant Carroll and Officer Dixon, of the county police, who, it is stated, surprised Harden in an automobile containing liquor, on a road coming into the city. He is now held at Fulton tower.

## FEDERAL SLEUTHS TRAILING FARMERS WHO HOLD CROPS

President Barrett of the Farmers' Union Says That Evidence Is Sought for Indictments.

### FARMERS ARE URGED TO CONTINUE TO HOLD

According to Barrett the Word Has Been Passed Around That Farmers Are to Be Taught a Lesson.

Washington, November 23.—Declaring he understood "that federal agents are already going over Kansas, Iowa, and other states trying to get evidence necessary to the indictment of men who are asking farmers to hold their crops," Charles S. Barrett, president of the National Farmers' union, through a statement issued today appealed to members of his organization to stand together and not sell their products at present "ruinous" prices.

"Show that you have the moral courage to go to jail if necessary," Mr. Barrett advised members of the farmers' union. "The word seems to have been passed around that farmers were to be taught a lesson—they were getting troublesome."

The farmers' answer to claims of over-production, Mr. Barrett said, should be: "We will simply lessen production." This was "no idle threat," he said, adding: "From every part of the country comes the promise that this policy should be adhered to until the country wakes up to the fact that it must either go on short rations or pay you wages high enough to live on."

Efforts of the farmers toward co-operation, Mr. Barrett said, have met with strong opposition from the first. He charged that "deliberate efforts" has been made to prevent them from buying collectively.

"For seven long, weary years," the farmers' union president added, "the farmers of this country have placed over them a secretary of agriculture, not a real sympathizer, with, and with little understanding of the needs of agriculture, and who now as secretary of another department, is being used apparently as a willing and eager tool to enforce deflation of farm products."

Mr. Barrett's charges further stated that the only course left to the farmers was to help one another and by raising sufficient money to finance more adequately "our business undertakings so that we can hold and market farm products ourselves in a business like, orderly fashion."

## FARMERS PREPARE MANY COMPLAINTS FOR CONGRESSMEN

BY JOHN GLEISSNER.

United News Staff Correspondent. Washington, November 23.—Indications are multiplying that a deluge of complaints from agricultural sections will descend on congress when it meets December 6. Farmers are loudly demanding relief from declining markets and restricted credits.

Their general dissatisfaction is shown in reports reaching the department of agriculture and other agencies. Associations of all kinds are meeting and protesting throughout the country. Co-operative marketing organizations are springing up. Acreages are being restricted and holding movements organized. This dissatisfaction will find expression through senators and representatives from agricultural states who are now preparing to present a legislative program in response to the calls for help from their constituents.

Wheat and cotton are selling at lower prices than before the war. Corn and oats are cheaper than at any time in five years. Hogs touched ten dollars in many markets Tuesday, a price which farmers declare is ruinous. Cattle are down. So is tobacco.

**Forced to Sell.**  
Farmers assert they are forced to sell at prices lower than the cost of production, that they cannot obtain credit properly to finance their operations, that food products are lower proportionately than manufactured articles and other raw materials. Agriculture will be ruined unless there is relief, the farmers assert.

TEACHERS TO ASK INCREASE IN PAY

Petition Will Be Presented Board of Education at Next Meeting to Be Held Next Monday.

Principals and teachers in the Atlanta High schools are preparing to petition the board of education for an increase of salary and their request is expected to be submitted at a special meeting of the board which has been called by President Fred Winburn for next Monday afternoon.

A committee representing the high school teachers called on Superintendent W. F. Dykes Tuesday informing him of their intention and formally discussing the proposed petition.

While it is understood they will ask for an increase effective from January 1, 1921, they have not indicated what schedule of raise they wish, although it is presumed that a graduated scale and not a flat raise will be requested.

It has been definitely announced, however, that the petition will carry a request to grant an advance in the amount of salary paid women teachers that will make their pay practically that received by the male instructors.

Principals of the high schools now receive \$2,562 a year, but this is the only position in the system where a woman is paid an equal salary with a man. Women assistant principals receive \$1,962, men \$2,382. Women department heads draw \$1,902, men \$2,222. The salary of women associate teachers in the high schools ranges from a minimum of \$1,302 to the maximum of \$1,782, while in the case of the men the minimum is \$1,572 and the maximum \$2,142.

Attention is called to the wide discrepancy which exists in salaries paid high school principals and teachers in other large cities as compared with Atlanta.

Last year the board of education granted a uniform increase of \$150 a month to the high school principals and teachers, and at the same time the grammar school teachers were given a raise of \$28 a month.

## WOMAN ARRESTED FOR OPERATING MOONSHINE STILL

Tampa, Fla., November 23.—Mrs. Lena E. Atty was arrested at noon today for running a "moonshine still." Her place was the heart of the city, opposite the number one fire station. About six hundred gallons of mash and a fine still in six gallons of liquor were confiscated.

## Love Affair Given As Cause in Alma Case of Poisoning

Mrs. Charles Allen Goes on Trial Today—Three Alleged Cases of Deaths by Poison Stir South Central Georgia.

The exhumation of bodies preparatory to chemical analysis to determine whether or not death was the result of poison or natural causes appears to have become the mode in south central Georgia. In Fort Valley hundreds of thousands of dollars figure as the cause of an alleged poisoning. In Alma a triangular love affair is alleged to have led to murder by poison. In Vienna an alleged poisoning is being probed where \$24,000 of insurance appears to be the object.

Dr. Edgar Everhart, state geologist, chemist, who has conducted the majority of the poison analyses in this state, declared recently that murders by poisoning have occurred in south Georgia in the ratio of 30 to 1 as compared with northern sections of the state.

Column after column has been written upon the case of Frederick D. Shepard, wealthy fruit grower of Fort Valley, whose viscera are now in Atlanta undergoing such analysis.

**Triangular Triangle Alleged.**  
Overshadowed by the Fort Valley sensation and well known unnoticed is the alleged love triangle of Alma. In Bacon county, Georgia, which Mrs. Charles Allen is accused of having attempted to solve with poison last July, and for which she will stand trial today.

Testimony to be introduced by the prosecution will attempt to prove that young M. L. Dubberly was the third party in an eternal triangle. During the latter part of July, Dubberly died under suspicious circumstances. His body was later exhumed and the viscera brought to Atlanta for analyses. Dr. Edgar Everhart found strychnine in his vital organs and will testify to that effect in Alma today.

Close upon the heels of these tragedies comes the case of Henry

## WAR-WON TERRITORY TO BE LOST BY GRECE

Britain and France Say Greece Must Not Expect to Hold Territorial Advantages if She Backs Constantine—Venizelos Much Depressed.

Paris, November 23.—Premier Legerues, when he appeared tonight in the chamber of deputies in the vatican debate, announced the government's intention to issue a warning to Greece against the return of former King Constantine. The debate was not finished, and was adjourned until Thursday, and it is understood that the premier will not go to London until a settlement is reached respecting France's representation at the vatican.

M. Legerues, in asking for a postponement of further interpellations so that he might be free to act, said:

"France does not wish to intervene in Greece's foreign affairs, but after a war which imperiled civilization, if a power puts at its head a sovereign who showed marked and constant hostility toward the allies and had been the accomplice of our enemies, that power ought to be warned that she can no longer have our co-operation nor expect the same feeling from us as formerly."

"Further than that, the treaties give us the right as a protecting power to proffer well founded advice upon the gravity of an act which might give Germany occasion to intervene directly or indirectly in Oriental affairs."

The premier said he wished to consider a definite course in the matter, a complete accord with Great Britain.

**Britain Threatens Greece.**  
Great Britain has already taken steps to inform former King Constantine of Greece and George Phyllis, the new Greek premier, that she is absolutely opposed to the return of the ex-king to the Greek throne, says The Petit Parisien. She has notified them clearly that if the Greek government does not take cognizance of her stand, Greece cannot hope to retain the territorial advantages given her in the treaty between the allies and Turkey, the newspaper asserts.

The Athens correspondent of The Journal, after giving details of the campaign in Greece, says that during demonstrations following the election, many persons, among whom were women and children, were killed.

Confirmation of reports that the plebiscite in Greece to decide as to the return of ex-king Constantine to the throne had been postponed to December 5, had been received by the French foreign office, it was announced today. The vote was to have been taken under the original arrangement on Sunday next, November 28.

The allied attitude toward the return of Constantine will be discussed Sunday next at a conference between Premier Legerues and Premier Lloyd-George of Great Britain, the foreign office stated. The two premiers also will take up other Near Eastern questions, including possible changes in the Turkish peace treaty at the expense of Greece.

**Venizelos Depressed.**  
Former Premier Venizelos of Greece is despondent over his defeat at the polls on November 14. (Continued on Page 11, Column 2.)

# KAMPER Wants Thanksgiving Menu

Frankly, we have been embarrassed in trying to select the best recipe for Fruit Cake out of the many hundreds that were submitted in response to our offer in our advertisement of last week. It is hard to believe that there are so many ways to make a fruit cake from the same list of materials. However, we have done our best and the \$5.00 basket of groceries goes to Mrs. W. S. Eakin, 241 Moreland Avenue. The recipe is printed below, and those who wish the details of the making may have them by applying to our "Menu Department."

This week we want your Thanksgiving Menu, and offer \$5.00 worth of groceries to the lady who submits the best one. Make it up from this advertisement and mail to "Kamper's Menu Department," not later than Friday afternoon.

Thanksgiving Feasting is much cheaper now—Just compare these prices with those of a year ago:

# His Friend and His Wife

By Cosmo Hamilton

(Continued from Yesterday.)  
Nothing from nowhere. Mary Miller was a little disingenuous when she announced the fact that she was happy merely because she had been for breakfast and saw her way out immediate money troubles owing to the fact that certain editors had given her orders for a series of magazine covers. She was tremendously aware of the fact—how could she help it?—that this very perfect young person was in love with her; that eventually, at his own good time, he would make a colloquial declaration of his love, probably asking her to be his wife as he would ask her to go riding or to play a round of golf. But she understood him through and she knew every particular step which had led up to his present condition of physical and mental modularity. Behind his semi-humorous expression she sized up the touch of poetry that was in his soul, and she knew all the excellence of the man that was latent in his nature.

## CAPITOL GOSSIP

BY MARION KENDRICK.

With Thursday as Turkey day, Capitol officials have made ample preparations with the man obtaining the largest gobble at the lowest price standing pre-eminently as the hero of the entire staff. Since Monday, the chief subject of conversation beneath the dome of the large building has been Turkey and the Tech-Auburn game, with every inhabitant planning to do full justice to the first part about 1 o'clock tomorrow and then adjourn to the scene of hostilities.

The last time when practically the entire force of state officials for three days and will continue to be conferred. Tomorrow to Chivalric and Rose Croix degrees will be conferred and Thursday the remaining Council and Consistory degrees will be conferred. The degrees are being conferred under the direction of H. C. Hollingsworth, general secretary and thirty-second degree G. C. C. H.

An interesting feature of the reunion is the addresses Hyman Wallace, sovereign grand inspector general in his states of Georgia and South Carolina, is delivering to the class. Many Scottish Rite Masons throughout the state are attending the reunion to witness the degree work, the session being a general one.

Already it has been demonstrated that this is the largest and best reunion this valley has ever had.

Miss Callie Broadnax, formerly with The S. A. Clayton Co., is now connected with Goff's, 806 Peachtree St. She wishes to thank her customers for their past patronage, and assures them she is prepared to serve them in the future at Goff's.

# HERBERT WALKER DIES AFTER SHORT ILLNESS

State Capitol Will Be Closed  
for Three Hours as Trib-  
ute to Memory.

Herbert Y. Walker, for seventeen years cashier of the state treasury department and one of the most popular officials in the building, died Tuesday, and as a tribute to his memory the capitol will be closed from 11 o'clock until 2 today, while the treasury department will not be opened during the whole day. Mr. Walker became ill at his residence at 268 Myrtle street, ten days

ago and soon developed pneumonia. His condition grew steadily worse and several days ago physicians gave up hope for his recovery, his death occurring Tuesday morning at 2 o'clock. After having been appointed as cashier during the administration of the late Captain R. E. Parks, Mr. Walker was retained by J. Pope Brown and remained under W. J. Speer, the present treasurer. As cashier, he was in touch with every state employee and was well known throughout the state. Mr. Walker was born in Bartow county forty-five years ago, and is survived by his wife, formerly Miss Margaret Peavy, of Newnan; one daughter, Margaret, age five; one brother, R. B. Walker, Dallas, Ga. Funeral services will be held this morning at 11 o'clock at the Ponce de Leon Avenue Baptist church with Bishop Warren Candler and Rev. Ashby M. Jones officiating. Interment at West View cemetery. The pallbearers will be Judge W. F. Jenkins, Lawson Nalley, J. C. Anderson, W. B. Harrison, Wrightman Bowden and James E. Dickerson.

# CURIOSITY AVERTS HEAVY DEATH TOLL IN TRAIN WRECK

Memphis, Tenn., November 23.—The curiosity of a score or more passengers aboard a Southern Railway train en route from Memphis, Tenn., to St. Louis, Mo., after a crash landing at a station near this city, in which one man was killed, prevented what probably would otherwise have resulted in a heavy death toll today when a gravel train crashed into the rear of the passenger train after a crossing accident at White Station, near this city, in which one man was killed. When the passenger train struck a truck, demolishing it and killing the driver, W. D. Gee, of Collierville, Tenn., all of those aboard with the exception of a woman and child, left the train to view the wreckage. A few minutes later the gravel train crashed into the rear of the passenger train, telegraphing it. The woman and child, heading the train, were killed. The man, leaped to the ground just be-

# AIRPLANE SERVICE BETWEEN MIAMI AND THE BAHAMAS

# RAIDS NOT CAUSE OF BIG SHAKE-UP

Chief Beavers Says His  
Order Was Not Influ-  
enced by Activities of  
Solicitor John Boykin.

Following the unprecedented shake-up in the personnel of the city police department, which went into effect on two watches Tuesday morning, Chief James L. Beavers said tonight that he believed that this action was influenced by the recent raiding of alleged gambling dens by the solicitor general's department, and declared that the morale or efficiency of the police force in no way reflects upon the force.

The shake-up is one of the most radical ever put into force here and is the only incident of its kind to occur in the local department in the past four years.

It went into effect Tuesday morning when a large number of the officers of the morning and day watches were transferred to new beats and officers operating in pairs were assigned new partners. Approximately 175 men are affected by the changes and the same action in the evening watch will effect about 75 more men.

Due to the absence of Captain W. F. Terry, who has been on sick leave for several days, the evening watch has so far remained unchanged, but chief Beavers stated that he has issued orders for a change in the evening watch, which will be carried into effect when Captain Terry, who returned to duty Tuesday, can arrange the details.

The detective department is not included in the shift, and Chief Beavers added that he has not entertained the idea of making any changes in its present working system.

"There is absolutely no truth in the report that my orders were in any way influenced by the raiding of alleged gambling dens," the chief said Tuesday night. "I gave the orders several days ago, before Mr. Boykin had issued any statement with reference to the gambling matter at all, which proves that my actions were entirely free from influence of this nature."

"It is also untrue that the shifts in any way reflect upon the morale or the morals of the department. They were inaugurated to give the men a change of work and to increase their interest. It is a good thing to change the officers' beats and partners every now and then. Such a shake-up is made every few years, and I believe it will give stimulus to the men as the result of new surroundings, which naturally bring greater interest in work."

# MRS. SUSAN A. BROWN IS CLAIMED BY DEATH

Mrs. Susan Alston Brown, known and beloved throughout the state, died Tuesday afternoon at her home on Sycamore street, Decatur. Funeral services will be held this morning at 11 o'clock from her late home, with Rev. Dr. Magahee, pastor of the First Presbyterian church of Decatur, in charge.

The pallbearers will be: Augustine Sams, Cone Bond, William S. Ansley, Homer George, Percy Chivers, R. H. Cunningham and Dr. Robert Cunninghamham.

Mrs. Brown was 66 years old, and may very properly be termed a "daughter of the old south." She was born in Macon in 1854, and was a sister of Colonel Robert A. Alston, who died in 1918. She is survived by another brother, Thomas Howard Alston, of Decatur, and four children, Edward Lafayette Anderson, of Madison, Fla., the offspring of a first marriage; Mrs. Ina Brown Burroughs, wife of Oliver D. Burroughs, of Jacksonville; Miss Bertrude Brown, of Decatur, and W. Alston Brown, of Florida.

Mrs. Brown was a lifelong member of the Presbyterian church, and has lived in Decatur for a long number of years.

# RECENT ELECTION WRONG TO WILSON, SAYS MARSHALL

Dallas, Texas, November 23.—"The country will live to regret what it has done in the recent election," Thomas R. Marshall, vice president of the United States, declared in an address at the Terminal railroad station this afternoon. "It is the gravest injustice of a century, and will bring one of the world's greatest figures to an untimely grave," the speaker said.

Discounts to Retailers  
Are to Be Eliminated  
In the Dress Industries

Atlantic City, N. J., November 23.—Resolutions urging elimination of discounts to retailers, the object of which, it was announced, was to reduce prices and stimulate buying, were adopted today by the Associated Dress Industries of America, in an annual convention here. The resolutions pointed out that the discount allowed by manufacturers to retailers amounts to about \$40,000,000 a year and that this sum would be given to the public in cheaper clothing.

Another resolution adopted urged the retailers to reduce prices, "not only to the public, but to the manufacturer and consumer buying be re-established to a normal degree, and that trading generally may be fixed and steady and labor employed as near to capacity as improved conditions will warrant."

LOANS TO RAILROADS  
FROM REVOLVING FUND

Washington, November 23.—Railroads are justified in applying to the interstate commerce commission for loans from the transportation revolving fund when money market rates are excessive, the commission held today, even though the wording of the act provides that the carriers must show "inability to provide themselves with the funds necessary for the aforesaid purposes from other sources."

To give full force to the statute, the decision said, it must be held that an excessive rate of interest or other unduly burdensome or injurious conditions which the exercise of sound business discretion will not permit, constitute inability within the meaning of the statute, to obtain funds from other sources.

# Finest of Weather Promised Atlanta For Thanksgiving

"Weather to be thankful for on Thanksgiving day." That's the promise which C. F. Von Herrmann, official weather forecaster, says he is able to hold out to the thousands of Atlantans who always turn inquiring eyes on pre-Thanksgiving predictions.

If you are a football fan rest assured there will be no interference of the scheduled game on the part of the weather man or his cohorts. If you are planning a day afield in quest of sport, or a motor ride, or if your plans revolve around a turkey dinner at home, go right ahead with preparations, Mr. Von Herrmann directs.

Thanksgiving day will be bright and clear and windless, he predicted Tuesday. "The thermometer will start out about 45 degrees Thursday morning, but by afternoon it will warm up to something like sixty degrees, maybe a little warm for football players, but all the same generally delightful for everything else."

Atlanta and vicinity will not be

the only section favored for the sun is expected to smile on Georgia from the mountains to the sea. As to general conditions reports show that the weather has become fair and moderately colder over the entire cotton belt. Showers occurred Tuesday at scattered places north of the Carolinas, and more or less cloudy weather prevails in the northwest. No very low temperatures are reported in any section.

# The Story of Zonite

By JOHN TAINTOR FOOTE

In this article Mr. Foote tells how war surgery was revolutionized through a discovery made by surgeons of the Rockefeller Institute, New York City. He tells how this discovery saved thousands of lives in the war hospitals of France. He tells how chemists have perfected the discovery until it now provides humanity with a mighty defense against infection and disease.

THE world has been shaken to its foundations by the most terrible war in history. During that war millions of men perished and billions of dollars' worth of property was utterly destroyed. The world is now taking stock. It knows that its losses have been staggering. Were there any gains?

It must be remembered that during the years of war Science was concentrated in an effort to find weapons and methods for the destruction of human life. More efficient manufacture and transportation of the things that gave men the power to kill has been the chief aim of civilization locked in a death struggle.

Opposed to this gigantic effort to destroy, however, was a comparatively small body of men and women whose every thought and act were devoted to the preservation of human life. Surgeons, physicians and nurses were the soldiers that the science of medicine called to the colors. They went forward into battle, not to kill but to save, and in the greatest clinic the world has ever known they learned new methods of surgery and healing that will be of incalculable benefit to mankind.

# America wins

It should give Americans a thrill of pride to know that the greatest of all advances in medical science, made as a result of the war was accomplished through the Rockefeller Institute, New York City. Ask a French or English surgeon who served in the war hospitals of his country about Dakin's Solution. "Marvelous!" he will tell you. "It saved hundreds of thousands of our wounded. The greatest discovery of the war." That is what the French and British have to say of this American discovery which came to the aid of the Allied war hospitals when

ished. The latter class contained a host of so-called mild antiseptics which were harmless to tissue but were absolutely worthless in attempting to kill malignant bacteria. They had no more effect on established infection than so much rain-water.

# Surgeons were powerless

Limited to these two classes of antiseptics French and English surgeons attempted to meet the infection produced by modern gun fire; but high-powered bullets and high explosive shells carried a myriad particles of germs laden dirt deep into the shocking wounds which they produced. The result was appalling. Gangrene, tetanus, blood-poisoning, living putrefaction stormed the Allied hospitals and turned them into pestilential horrors. The polio held at the Marne; held again at Verdun. The English and Canadians stood fast at Ypres, but their surgeons and nurses were being beaten by a more insidious foe than German shock-troops. Infection, unbelievable infection, was beating them down. A man would not survive a wound on Saturday, but by Monday would die within the week.

Back from the war hospitals, through all branches of the medical profession came the cry: "Find, O find us something that will check this fearful horror! We are helpless before such infection. We must have something to check it!"

Among those who heard the call were two distinguished surgeons of the Rockefeller Institute. Supported by the Institute they went to work. They experimented day and night, for every hour was precious. At first in the laboratory at Beaulieu Hospital, Paris, and later at Military Hospital 21, Compiegne. And one day they made an announcement. "We think we have what you want," they said. "We call it Dakin's Solution. It is a new antiseptic derived from sodium hypochlorite. Try it and see." The surgeons of the Allied armies tried it and saw. They saw that previous surgical methods were revolutionized. Here was a real antiseptic at last, that could be used constantly in the deepest wound. It would destroy germs like fire and was perfectly harmless.

# French and British thankful

"Vive l'Amerique!" exclaimed the surgeon-generals of the French army as the new antiseptic drove infection from the war hospitals of France, and "Well done, America!" came the thankful echo of the British medical staff. And now how can the world best profit by the biggest asset of the war? Can this powerful though non-poisonous antiseptic be placed in the

home ready for instant use? Until recently it could not, for the following reason: Dakin's Solution is non-stable. In other words it will not "keep." It must be freshly made just before using and the preparation of it is both delicate and complicated. This means that its use is restricted to hospitals where it can be prepared each day by laboratory methods.

Since its discovery, however, some four years ago, chemists in all parts of the world have been experimenting earnestly in an effort to stabilize Dakin's Solution and once again America wins. The credit, this time, goes to two chemists in a thriving Ohio city. It is a coincidence that Dayton is the home of the Wright brothers, inventors of the airplane which accomplished such marvels in the war, is also the home of the Foote brothers who have succeeded in stabilizing the world-war antiseptic. Not only have they stabilized it but they have concentrated it. This means that Zonite, as the new preparation is called, will not only keep indefinitely but can be put up in comparatively small containers ready for instant use. The result is this: every household in the world can be guarded against infection and contagion by an antiseptic that is not only harmless and non-poisonous but when subjected to the official government tests for disinfectants shows greater germicidal efficiency than pure carbolic acid.

The days of poisons in the home are past. Carbolic acid, bichloride of mercury, all deadly things of the sort must go. Zonite will do much more than any of them without any of their attendant dangers.

In discussing the new antiseptic when applied to household use, a number of physicians agreed that Zonite will prevent more suffering and save more lives in peaceful days to come than Dakin's Solution did during the war.

Zonite is being placed on sale at all druggists as rapidly as possible. It is a colorless liquid that does not stain and leaves no odor. It is absolutely non-poisonous and the standard test of the Hygienic Laboratory, U.S. Public Health Service shows it to be one and sixty-seven one hundredths times as powerful as pure carbolic acid. It may be heavily diluted with water and still maintain high germicidal efficiency.

employed on Central avenue, were termed by the solicitor as professional gamblers, who "have no other means of livelihood." Included in the apparatus shown the jury were two card-cutting machines, whereby any card in the deck could be cut the fraction of an inch so only the professional could detect the difference in the cut card and other cards.

Speaking of a raid made by the city detectives on a house on Houston street, Mr. Boykin stated that he wished to correct an impression Chief Poole may have conveyed in the statement he made Monday when Mr. Poole said:

"In this raid our officers secured the books, showing how the house was operated and who was gambling in the house. Among the names of these persons was an attorney who had been connected with Mr. Boykin's office. Instead of taking this information and pre-

sented it to the grand jury, Mr. Boykin, in my presence, telephoned this attorney to come to his office, and when the attorney came, Mr. Boykin joked with him about the money he had lost and won betting upon the races. This house was not indicted, nor were any of the persons whose names appeared upon the books, so far as I can ascertain, ever presented to the grand jury."

The attorney to whom Chief Poole referred, said Mr. Boykin was a young man who had been in Mr. Boykin's law office before he was a solicitor, although he was not an attorney then. Mr. Boykin pointed out that he could not prevent this attorney later on from representing gamblers or anyone else. He represented the inference that the fact of knowing this attorney had anything to do with his own attitude toward the case, declaring Chief Poole was fully aware that it made no difference.

The reason this particular evidence was not brought before the grand jury, Mr. Boykin already had declared, was that the men arrested at Chief Poole's own suggestion, were fined in recorder's court, and were never bound over to the superior court, where the cases would have reached Mr. Boykin. This he said, was sufficient to break up the gambling house, which was the main issue involved.

TRAILING FARMERS**

and in this they have the backing of many influential members of congress. An index of conditions in fruit and vegetable markets was furnished by the bureau of markets Tuesday. New England potatoes growers, in many sections, were unwilling to sell because of low prices. In Michigan, apple growers let their fruit remain on the trees rather than gather it at prices offered. Pear were allowed to decay in Maryland orchards. Tobacco growers were reported organizing to restrict acreage, and wheat growers to hold their grain.

**Chief Complaints.** Chief among the complaints is that directed against the federal reserve board. Farmers and their spokesmen declare that, inspired by a mistaken policy of the central government, banks throughout the country decline to make legitimate loans to farmers, as a consequence of which they were forced to dump products in demoralized markets. Schemes for making credit more easily available are being discussed at the capitol.

Other methods of aid likely to be presented for consideration of congress include:

Revival of the war finance corporation to stimulate exports, because countries in dire need of food loans to farmers, as a consequence of credit and because of demoralized exchange.

Exemption of farmers, co-operative organizations from operation of the anti-trust statutes.

Regulation of the grain markets, where it is claimed speculators reap a rich harvest at the expense of producers, and create artificial prices.

Perfection of better distributing systems.

Farmers assert they are willing for the laws to supply and demand to operate. But they argue that restrictions and manipulations enrich others at their expense.

**FULTON FARMERS FORMING BUREAU FOR MUTUAL HELP**

The Fulton County Farm Bureau will conduct a membership campaign the week of November 23 to December 4. Preliminary work already is well under way. Posters, 2 feet square, proclaiming in large type, the following message:

"Farmers! You are entitled to cost plus on the commodities which you produce, just as much as the packer, the steel manufacturer, or any other business man. In only a few instances have your crops brought more than the cost of production during the last thirty years. You must organize to secure better markets, better transportation and better credit. We believe the farmer has the same right to returns on the capital invested as has the bank or factory."

"Organize! Join the Farm Bureau Federation! See that your interests are represented on a par with those of labor and capital. They do not

know your problems. Farm bureaus do not aim to replace any other organization. They include among their present conditions of all farmers' organizations."

**Co-operation Urged.** Join the 998,000 other farmers of the United States who are now in the farm bureau movement. Its basis is co-operation and its purpose is to create an organization that will act as spokesmen for the farmer.

"Join the farm bureau!" The Fulton county organization is distributing through the medium of retail merchants, small postcard fliers reading:

"We believe in co-operation and organization. We are backing the farmer. Join the farm bureau!"

The extension division of the Georgia State College of Agriculture is assisting in the movement. It is distributing a circular reading as follows:

"Do you consider this an opportune time for the farmers to get together in a real honest-to-goodness farmer organization—an organization of farmers, by the farmers and for the farmers? We feel sure that the answer is 'yes.' Will you answer yes to this question. Will you spend your time, money and influence toward making such an organization a success in our county?"

**Farmers' Needs.** "The farmer needs a non-political, efficient and functional organization to help him get what is coming to him. Such an organization will never exist unless the farmer himself forces it into existence and keeps it there through a spirit of hearty co-operation. Men in all other walks of life are organized; they make it pay; the farmer can't."

"The plan of organization is this: Communities federate into the County Farm Bureau; counties federate into the State Farm Bureau Federation, and the states federate into the American Farm Bureau Federation."

"The purpose of this organization is not to fight or antagonize any other legitimate lines of business, but to enable the farmer to conduct his affairs on a more businesslike basis and to co-operate with any and all organizations or activities that have a bearing on agricultural development. Give your best thought and discuss it with your neighbors."

"These conditions force us to admit that something should be done. Let us do it."

The victims were attacked while they were asleep. Isaac List and Severy Berro, both about 80 years old, were injured, are expected to recover.

Continued from First Page.

Chicago, November 23.—With another janitors' strike looming after the Chicago Real Estate board's refusal of new wage demands, officials of the Chicago Tenants' association declared today they would shovel their own coal "rather than submit to extortion." The association has about 20,000 members.

Some Chicago janitors are making \$5,000 a year, according to James J. Carroll, of the real estate board. When officials of the janitors' union met with a committee from the board yesterday they presented demands for increases approximately 50 per cent. The demand was refused by the board.

Edwin F. Hammond, a tenants' association official, told the board the janitor in the "flat building" in which he lived was making \$600 a month.

"If the increase is granted he will make \$900 a month, which, doubtless is more than any tenant in the building makes," said Hammond.

St. Louis, November 23.—Further reductions in the wholesale prices of shoes were announced today by two shoe manufacturers here today.

A general reduction of 10 per cent was made by the McKroy-Sloan Shoe company officials of that firm said.

The Brown Shoe company announced that men's calfshoes were reduced from \$7.50 to \$6.50, making a retail reduction from \$11 to \$8.

Women's calfshoes, the announcement added, were cut from \$6 to \$4, enabling the retail price to decline from \$8 to \$6 or \$6.50. Workmen's shoes were cut to \$2 from \$3.50, which, it was said, should allow the retail price to fall from \$5 to \$4.

### Association Formed By Retail Merchants To Meet Crisis in Prices

New York, November 23.—Representatives of more than 1,200 retailers of clothing, dry goods, shoes and millinery throughout the country organized the Council of National Retail Associations here today.

day in an effort to meet the crisis in the retail trade due to falling prices. The organization meeting was held behind closed doors, but it was learned that the newly-formed council is composed of representatives of the National Retail Dry Goods Association, the National Association of Retail Clothiers, the National Garment Retailers, the National Shoe Retailers Association of the United States and the Retail Milliners Association of America.

## Salaries and Savings

Many people with small salaries think they cannot save. Yet the largest accounts we have today began with small deposits. Consistency is the key for making them grow.

Small salaries necessitate prudence—prudence encourages thrift—and thrift builds savings accounts. If you would be successful be firm, be determined, be systematic.

The 4 per cent interest we pay will be a fine stimulant. The more you get the more you want.

Our new savings quarters are now open and the tellers will open up an account with you for a dollar or more. Our Mitchell Street Branch has the same saving facilities, and after January 1st our Tenth Street Branch will welcome you at Tenth and Peachtree.

### NEW YORK GREETED GEORGIA TOURISTS

Members of Tech Industrial Tour Are Given Dinner-Dance by Georgia Society of New York.

BY PAUL FAWCETT.  
New York, November 23.—(Special.)—Governor Hugh Dorsey, head of the Georgia Tech industrial tour, said today that he had never felt so much like a governor in his life as when Mayor Hylan turned over to him, and the party of Georgians he leads, the keys of the greatest city on earth, and a warm official welcome.

When the party held up traffic in Pittsburgh they thought they had reached the neplus ultra of recognition, but the special police escort, and the reception of Mayor Hylan, in New York today, have been just as satisfactory.

A group of former Georgia men who have emulated fiction and come to the big city for fame and fortune, greeted the tourists at the Pennsylvania station, after they had embarked from their special. Among these were: "Bob" Adamson, president of the Petroleum Heat and Power company, and once on the Constitution staff; Thomas B. Feller, attorney at law, and vice president of the Guaranty Trust company, and several others. These men stayed with the party throughout its trip about the city.

Party Clings Together.  
During the tour of the city, after the mayor's reception, during the inspection of the colossal paragon of the shipbuilders' art, the "Enterprise," while they were sumptuously entertained at luncheon by the Merchants' Association of New York at the Biltmore; while they were received as honor guests in the clubrooms of the United Engineering society—all the while they clung together.

Then at night came the crowning spirit fest of the day, when the great group of good fellows, composing the Georgia Society of New York, entertained the hundred and twenty-seven citizens of the Empire State at their annual dinner-dance at the Astor.

Vice President Louis C. Pearson, of the New York Merchants' association, presided at the luncheon, and talks of welcome were made by the presidents of the several local chambers of commerce, Mr. Adamson and Lee Kolms, president of the New York Board of Trade and Transportation.

Dr. K. G. Matheson, president of Georgia Tech, and Governor Dorsey also addressed the enthusiastic gathering of leaders on the industrial and business life of Atlanta. Hoyt B. Evans, president of the Georgia Tech Club of New York, and Dean Hill, vice president of the National Georgia Tech Alumni association, were leaders in the gracious welcome extended.

Leave for Atlanta.  
The cheery throng will clamber aboard the special train tonight for the jaunt to Washington and the dual leg of the journey, which will land them in Atlanta in time for the Thanksgiving game between Auburn and Tech Thursday.

Speaking of that trip home reminds us of Walter Tate, the marble potentate of Tate. He has a town named for him in Georgia, and is now demonstrating one of the reasons. A lad of color, who called himself Isaiah Suber, crawled on the special in Boston, declared anxious to return to the south and take his wife and baby, living in New York with him. He said he had the necessary funds, and Mr. Tate overheard him. So he has staked Isaiah to a railroad fare, and the Tate Marble works will have some new and grateful hands in a day or so.

Both Governor Dorsey and Dr. Matheson pleased with the results of the trip through the north and east, saying that they believe it will be one of the greatest things which has ever happened for the development of Georgia, in that it will hold up the popular appreciation of Georgia Tech as a developing influence and will show the people of Georgia the possibilities which the state holds for them in an industrial sense.

Changes Favored  
In Laws Affecting  
Life of Children

Plans Inaugurated, for Organizing Special Committee to Consider Problems, at Meeting of Social Agencies.

Plans to revise state laws affecting child life in Georgia were inaugurated Tuesday at the meeting of the Georgia Council of Social Agencies with the appointment of a committee to urge the legislature to create a children's code commission, before which can be brought recommendations of all organizations interested in the protection of child life.

The program of the Georgia Council, following a luncheon in the pine room at the Ansley hotel, was given over entirely to a discussion of the needed child legislation in this state. Joseph Logan, vice chairman of the council, presided in the absence of the chairman, Cator Woolford. The following agencies were represented, the state board of health, the state board of education, the state board of public welfare, the state department of commerce and labor, the state library commission, the Red Cross, the Georgia children's home society, the Georgia association of children's institutions.

**Special Organization.**  
So impressed was the council with the need for revision of the laws affecting children, after hearing these needs presented from the viewpoint of the various agencies, that it was the opinion of those present that a new organization should be formed in the state to be called the "Georgia Committee on Child Legislation," composed of representatives interested in the question.

A committee of the council, composed of Burr Blackburn, secretary of the state welfare board; Dr. T. F. Abercrombie, secretary of the state health board; Mrs. J. K. Ottley, chairman of the state library commission; T. S. Scoggins, president of the Georgia association of children's institutions; and Harry Bishop, of Savannah, was designated to take the necessary steps to create the organization.

**Will Act Independently.**  
When formed, the committee on child legislation will have no connection with the Georgia Council of Social Agencies. It will act independently, taking such steps as are thought best to secure the necessary improvements in the laws. The consensus of opinion, however, seemed to be that the plan of securing a legislative children's code commission which has been so successful in many other states, would be adopted. The initial meeting effecting this organization will be called early next month.

Among the needed laws suggested were those for proper prenatal care of mothers, proper sanitation of school houses, compulsory vaccination, creating county public welfare departments, standardizing pauper relief, providing mother's pensions, improving desertion and illegitimacy laws, advancing the age of consent from 14 years to 18 years, broadening the scope of the juvenile court law, and bringing the state child labor law up to the standard of the federal law.

The council voted to extend an invitation to join its membership to the Georgia Federation of Women's clubs, the state prison commission, the Georgia Association of Children's Institutions, and the Interdepartmental Social Hygiene bureau.

Tuberculosis Costs  
Georgia \$23,000,000  
In One Year's Time

Georgia's economic loss as a result of tuberculosis during 1919 was \$23,000,000, according to facts developed by the Crusade Against Tuberculosis, an organization engaged in a campaign in Georgia against the disease.

The association points out that the loss amounts to three times as much as the total income of the state. According to these figures, it is now costing the state more than three times as much to bear the losses from one disease as it does to operate the state government.

It is generally known that the expenses of the tuberculosis fighting the disease are obtained through the sale of Christmas seals during the holiday season. The sale of the seals will begin on the first day of December, and continue until Christmas day.

BALLOTS ARE RECEIVED  
FOR CHAMBER LEADERS

Indicative of the interest being manifested in the annual election of directors for the Atlanta Chamber of Commerce, more than 100 ballots were received Tuesday morning in the first mail arriving since the ballot blanks were mailed to the membership Monday afternoon. It was announced yesterday by Secretary Charles H. Robertson.

Much good-natured rivalry has developed among the members as a result of the contest, according to Mr. Robertson. Eight new directors are to be selected from sixteen nominees, and the men elected will supplant eight retiring directors on January 1, 1921, for terms of two years each.

The sixteen nominees are as follows: Walter O. Foote, J. Russell Porter, R. K. Rambo, Charles P. King, Frank M. Inman, Arthur G. Howell, Harry P. Hermance, Beaumont Davidson, Thomas H. Daniel, Eugene R. Black, H. B. Bayler, Lee Ashcraft, W. A. Albright, J. P. Allen, Albert S. Adams and Forrest Adair. Polls will close at 6 p. m. on next Tuesday afternoon.

## West End Services.

Thanksgiving services will be held at the West End Presbyterian church Thursday morning at 10:30 o'clock. The choir will furnish special music and the sermon will be preached by the pastor, Rev. R. F. Kirkpatrick.

FIRE ESCAPE LAWS  
NEEDED, SAYS CODY

Many Apartment Houses in Atlanta Are Veritable "Fire Traps," Declares Fire Department Head.

Ordinances to compel Atlanta apartment houses, many of which, according to statements Tuesday by Fire Chief Cody, are but little better than "fire traps," to install fire escapes will probably be taken up at the meeting of the ordinance committee Friday. Chief Cody conferred Tuesday with Chairman Alvin L. Richards, or the ordinance committee, and announced his intention of taking up the matter with Mayor Key, following his return from a visit to south Georgia.

After mentioning several apartment houses he had visited in a tour of these buildings, he said that should a blaze gain headway in any of them the loss of life might be appalling. The need of laws forcing the installation of fire escapes in these buildings was emphasized by Chief Cody.

"If I would not be doing my duty if I did not call attention of public officials to what I consider a terrible fire hazard," Chief Cody stated.

There are any number of apartment houses in Atlanta three stories high which have no fire escapes. If a large blaze should start in a basement or on a lower floor, particularly at night, there would be no chance for occupants of the upper floors to reach safety.

"I believe apartment houses of two stories should have fire escapes. Other cities, Cincinnati for instance, are strict in requiring fire escapes on buildings of all kinds."

## Laggards Never Win

THE manufacturing concern which postpones increased production in the hope of materially lower building prices will be waiting, marking time while its competitors capture the market.

And the hoped-for saving will be pitifully small when compared with lost profits and lost opportunities. The old phrase "penny wise and pound foolish" will apply in many instances.

The Ferguson Limited Cost-Fixed-Fee plan, on the other hand, protects the cautious purchaser against all needless expenditure because of such price-drops as usually occur.

# Sports Tigers Play Plain Game This Afternoon

Edited By  
Cliff Wheatley

## Thursday's Game Is Shrouded In Deep Mystery; Great Crowd Will Witness South's Classic

BY HOMER C. GEORGE.

The biggest crowd ever at Grant field will see what is looked upon as the mystery game of the year Thursday, when Tech plays Auburn. Mystery game because there is so much confusing due to the fact that the relative merits of the team. Certainly one can make either team outclass the other according to the manner of doing.

Long ago all of us who study football learned that comparative scores count for naught. Consequently, those of us who have watched the development and play of the Tech outfit believe Tech will win by a big score. But for one have not seen Auburn and accordingly cannot figure on that team's ability except from reports. And reports are so contradictory that my hands are up in the air.

Some of the fellows who saw Auburn play Washington and Lee are sure that the Alabama team is strong and powerful enough to win from the local boys or at least hold them to a tight, close score game. One sent \$500 to be bet on Auburn, taking that team and fifteen points for his money. And he believes he will surely get away with it, for he says Auburn has a great team.

On the other hand, the man who took this bet is confident Tech will win by 20 to 40 points and declares he has had reports on the Auburn team which satisfy him that no score will be made. In fact, he has expressed a willingness to bet 1 to 2 that Auburn does not get a single point. There is a lot of talk on all sides.

Speaking of bets, many freak bets are being made on the game. Some fellows are getting even money and others are giving 14 to 20 points. One bet was made yesterday spotting Auburn 35 points, but at odd

of 1 to 2. These freak bets come up in the many arguments which start on any corner and in any office, club room or meeting place. For the game is the most talked of thing in prospect.

**"Cigarette Rush."**  
Saturday when the Alabama boys came to town they brought a story of the first cigarette rush ever given at a football game. This rush happened during the Alabama-Vanderbilt game at Birmingham and attracted more than two thousand participants. It came during the halves when the teams were resting and a snake dance was being indulged in by the boys. Ten thousand Chesterfield cigarettes were thrown upon the field.

When the cigarettes were scattered to the wind winds there ensued a scramble which eclipsed the game in fun and excitement. Flying tackles, line bucks, punts, pantaloons and center rushes followed one another in the scampering for the fags. Boys from all parts of the grandstand and bleachers joined in the rush and for ten minutes bedlam proper reigned.

After the excitement had died down and everyone was comfortably seated one of the Alabama boys leaned back and began smoking his fag and, with a blessed smile, chirped:

"A wag nearby admitted: 'They shore do, but I knew there was a trick to it when they began scattering these cigarettes.'"

"Trick? Where do you get that?" asked a puzzled pal next to him.

"Cause they did not give us any matches to light 'em with," grumbled.

At any rate, the event proved one of the exciting moments of the game and is still being talked about as much as Stephens' great line plunging.

## TECH HIGH FAVORER BOWS TO HOPE

BY J. LAUREN CLARK.

Just one more game to go, and Tech will go down in history. Following the old rule the best is saved to the last. Boys Tech will meet Tech High at Grant field as a final act Saturday afternoon.

Last year the Smithies won by a lone field goal. The game was played in about the hardest rain that ever fell on a football field. Playing in the rain as those two teams did it is a wonder the whole bunch didn't break their necks. This year the weather man has promised a dry field for the two elevens to battle on, so there will be absolutely no "wet grounds" alibi.

On account of the ancient rivalry between the two schools, this game will be a hard struggle. The men on both teams had rather hand the other a defeat than to see the Purple and White aggregation feel differently every year.

To have their record spoiled at this late stage would be the next thing to death for the Smithies. Tech High has a great team, but if the Smithies take the field against Battle on, so there will be absolutely no "wet grounds" alibi.

Advices from Lynchburg, Va., last night indicated that this action of the Richmond business men was made without authority of the officials of the Flying Squadron.

The following information was obtained from the Virginia Military Institute at Lexington, Va.

By Ford Little.  
Coach Elcock announced that the team making the trip to Columbus, where the Oglethorpe Tech meet, are as follows: Captain Knox, Parr, Stephens, Turner, Varnadoe, Morris, Reeves, Johnson, McGarrie, David, Simpson, Nichols, Lunsford, Moore, Carlisle, Adams, Burfield, Whitehead, Walton.

The probable line-up of Oglethorpe will be: Eardley, center; Moore, right guard; Nichols, right tackle; Carlisle, left guard; Simpson, left tackle; David or Johnson, left end; Reeves or McGarrie, right end; Varnadoe, quarterback; Knox, right half; Stephens or Ivey, left half; Parr, fullback.

Only a light practice was held Tuesday, most of the time being devoted to signal work. The team has been working hard all this week.

It is expected that the aerial method of offense will be used often against Tech.

## Post-Season Games Turned Down By Georgia Tech Authorities

Offers of post-season games for the Golden Tornado with Notre Dame and the Virginia Military Institute yesterday caused an announcement last night by Dr. J. B. Crenshaw, director of athletics at Georgia Tech, that these games, and others, had been declined. Dr. Crenshaw stated that "cast-iron rules at Georgia Tech prohibited post-season games."

The offer to play Notre Dame on the Polo Grounds, New York, came from officials of the New York National league baseball club, who declared that such a game would be the greatest drawing card of the season in the "big town," and the guarantee outlined in their offer was the largest ever made a southern college from a team in the east, it is rumored.

The V. M. I. Game.  
The game with the "Flying Squadron" was desired by Richmond businessmen, who offered a guarantee of five thousand dollars for the contest between the champions of the south Atlantic conference and the Golden Tornado. The New York and Richmond offers both suggested December 4 as the date of the proposed game.

The following Associated Press dispatch, yesterday afternoon, reported the first findings of the Richmond offers.

"Richmond business interests today wired Georgia Tech an offer of a live association dollar guarantee for a game in Richmond on December 4, against the Virginia Military Institute, which is the champion of the southern football championship."

The action of the baseball officials in New York was unquestionably due to the demands of the Golden Tornado. The Flying Squadron, which has been brought to that city this year, the fame of the Golden Tornado has been spread throughout the nation, and New York has a habit of desiring to see the best in every line. Several prominent members of the strongest sort of opposition, as the eleven has swept through the Golden Tornado, have been brought to New York and Ohio state hold joint claims to the western title, but the discussion will not be settled this year, as the teams do not clash.

Advices from Lynchburg, Va., last night indicated that this action of the Richmond business men was made without authority of the officials of the Flying Squadron. The following information was obtained from the Virginia Military Institute at Lexington, Va.

By Paul Warwick.  
New York, November 23.—(Special.)—Chip Robert, alumni director of Georgia Tech athletics, in addition to the Richmond offer, has been high in his praise of the record Tech had made and expressed regret that he had been unable to see them perform against Pittsburgh.

He particularly regretted his inability to see the team play against the Navy and the Penn-Penn State game, which he had been unable to see.

## HEISMAN TO KEEP HIS JOB

Reports from Pennsylvania that John W. Heisman, former coach of the Georgia Tech team, was about to lose out as director of this sport at the northern university as the result of dissatisfaction over the poor showing of his eleven this year, have been given the quietest by a statement from Wharton Sinkler, chairman of the Penn football committee.

Sinkler points out in an article in The Bulletin, of Philadelphia, that Heisman has a three-year contract, and that it was too much to expect him to turn out a classy team in one year's time. It is admitted, however, that the former Tech wizard has driven his men hard and that in one game at least they appeared overworked—dead on their feet.

Persistent rumors that John W. Heisman would be ousted as head coach of the University of Pennsylvania football team as a result of the disastrous season sustained by the Red and Blue this fall, were officially denied today by Wharton Sinkler, chairman of the Penn football committee, says The Bulletin.

"These reports have been going the rounds for some time in a desultory sort of way, but crystallized into a definite statement today by Sinkler, who has been in the city since the season and his salary paid for the full term of his contract."

The New York Herald, who writes under the pseudonym of "Daniel," in an article, declared that Heisman was slated to go, just as George Brooke was deposed in 1914 with a part of his contract still unexpired.

"Mr. Heisman has a three-year contract," said Mr. Sinkler, "and he will have a fair chance to show what he can do."

It is not just to judge Mr. Heisman on this season's showing. He has very green material, practically no veterans around whom to build his team, and he also faced a very hard schedule. The first game with Delaware was easy and Penn won handily, but every week since a strong team has come to Franklin field.

Bucknell, Swarthmore, Lafayette, V. M. I., State, Pitt and then Dartmouth followed in the order named. The team won from the first three and lost the last four. It would have been hard to keep even a veteran team in shape for such a long grind, but with a green eleven it is impossible. No coach can be expected to point to such a record as a succession of stiff contests.

The great shape of the team, which Heisman has been installing in a new system and that not only were the mouth game, but the team ignorant of the principles of this system, they were not very well versed in the fundamentals of football.

So they had to be worked very hard, and it was not until recently that they had been able to see them perform against Pittsburgh.

He particularly regretted his inability to see the team play against the Navy and the Penn-Penn State game, which he had been unable to see.

He also expressed regret that the team had been unable to see them perform against Pittsburgh.

## Spirit Running High at Tech; Auburn Tiger Arrives Today For Annual Clash With Tornado

BY WALLACE GEORGE.

Spirit is running at highest pitch possible out on the Georgia Tech campus and every student is counting on the Golden Tornado to sweep through the Auburn Tiger for a decisive victory when the two teams meet on Grant field tomorrow afternoon. Spirit meetings held last night and the night before indicate the greatest display of cheering and rooting at the game that has ever been shown on the Tech gridiron.

The varsity squad worked out yesterday afternoon in a long and continued signal practice. The freshmen team was also out. When the scrubs were dismissed the varsity team gathered and gave a rousing cheer for the splendid spirit they had displayed all year and for the aid they had given in rounding out the varsity Tornado.

After they left, varsity practice continued until nearly dark. Punting, drop-kicking and passing came in for its full share of the time, and the more important items of the aerial attack were stressed to quite an extent. The two varsity elevens ran signal practice separately up and down the flats, going through a multitude of formations and plays of all kinds.

The entire Tech squad without a single exception reported for duty as fit as a fiddle. Even Jack McDonough was out in uniform. Others who have been included on the sick and injured list from time to time seem to have forgotten all about it and when the whistle is blown for the start of the game Thursday there is not going to be one of them not ready to give the best he ever gave in his life.

No Joy Prevailing.  
The great shape of the Auburn team isn't adding a bit to the joys of the Tech coaching staff now.

By doing figures from several different angles, the Tigers have it all over the Tech men and if the record against the Tech team this afternoon and along with them a host of rosters and visitors. The other supporters and fans of the Auburn and Georgetown for Tech, counts for anything, then all things about it and when the whistle is blown for the start of the game Thursday there is not going to be one of them not ready to give the best he ever gave in his life.

That this 1920 Turkey day contest is going to surpass all games staged in these parts since the dark days seems a certainty. Contrary to the belief that is usually so poor with the Tech supporters the Auburn Tiger will put up a weak side. The advantage in weight is all on the Auburn side of the fence but a comparison of scoring abilities of the two teams places Tech to the fore. Offensively, the Yellow Jacks loom up as one of the truly great combinations of the country; defensively, the Tigers can rank with the very best of them too.

The Attendance.  
Dr. Crenshaw, in speaking of the game yesterday evening, declared from an attendance standpoint it was sure to be only a cyclone. He could keep this Thanksgiving game from eclipsing everything on record. The way the game was being swept out every single one of the seats almost a week before the game was little short of miraculous. From the way the fans jumped on the tickets for unreserved seats, the Auburn Tiger will put up a weak side. The advantage in weight is all on the Auburn side of the fence but a comparison of scoring abilities of the two teams places Tech to the fore. Offensively, the Yellow Jacks loom up as one of the truly great combinations of the country; defensively, the Tigers can rank with the very best of them too.

News received from New Haven, Conn., yesterday was to the effect that three members of the Yale Athletic Association, who are now in the city, are to be reserved for the game this afternoon and along with them a host of rosters and visitors. The other supporters and fans of the Auburn and Georgetown for Tech, counts for anything, then all things about it and when the whistle is blown for the start of the game Thursday there is not going to be one of them not ready to give the best he ever gave in his life.

### To Keep Hair Wavy, Lustrous, Beautiful

The use of the hot curling iron cannot be too strongly condemned. It means death to the hair eventually. Moreover it is entirely unnecessary. The hair can be kept beautifully wavy and curly to any extent and in any form desired, by using the simple and harmless *stunnet* method. Liquid *stunnet* should be applied to the hair before doing it up, using a clean tooth brush. In about three hours you will find that a very pretty "natural" curl and condition has resulted, and the effect will last quite a considerable time.

Liquid *stunnet* is really beneficial and is not sticky nor greasy. Neither does it strip the hair of its natural oils. You need get only a few ounces from your drug store. The best way is to divide the front and back hair into four to six strands and so moisten each strand separately from top to tip. (adv.)

## When a Family's Really Hungry

HERE'S a dish for big appetites. Boil rice, southern style, so that every flake is plump, and tender, and standing alone. Mould the rice in cups and place, like dumplings around the edge of a well-seasoned beef stew. Then pour the gravy over the rice. It certainly is great.

Rice is delicious for breakfast, dinner, and supper. Eat it as a cereal with sugar and cream. Eat it as a vegetable with all meats, fish, and poultry. Eat it as you do potatoes with gravy or butter on it. Eat it every day—you'll enjoy it.

Rice is the most delicious, most healthful, most economical food grown. American rice is the finest in the world. It excels in flavor, in purity, and in wholesomeness.

You save money by eating rice. One cupful makes enough for five people. Leftover rice is useful in preparing dozens of tasty dishes. None is wasted. There are over three hundred ways to prepare rice.

Keep healthy by eating rice. It builds up your strength. It sustains your energy. It is the quickest and easiest food to digest.

### Cook Rice by this Master Recipe

Follow this famous old recipe of the south. It is so simple that any one using it can successfully boil rice the first time they try.

Wash rice thoroughly in a strainer. Use a deep porcelain or agate-ware kettle. To four cups of boiling water add one level teaspoonful of salt. Then add one cup of washed rice so slowly that water continues to boil. Lift rice occasionally with fork, and shake kettle so that no kernels stick to bottom. But—this is important—never stir the rice. Boil twenty minutes. Then pour water off, if any, and place in open oven where it will finish swelling without burning. Each grain will stand alone, plump, tender, and delicious. Consult any standard cook book for a number of excellent recipes for rice.

## Society

### Entertains Leaguers.

Dr. R. O. Holtzendorf, president of the Epworth League of the First Methodist church, entertained his leaguers delightfully Thursday evening at his home, 59 Durant place. The lower floor of the home was

thrown together and beautifully decorated with huge yellow and white chrysanthemums, the league colors. A fine musical program was rendered by Miss Richardson, Miss Whitney, Mr. Durham, the Trinity orchestra and Miss Holtzendorf. (Dr. Holtzendorf was assisted in entertaining by his mother and sister, Miss Clyde. A delicious punch and sandwich course, followed by an ice course, was served by Misses Ethel and Clyde Holtzendorf, Mrs. Tom Stevens and Miss Corinne Little. About 75 young people enjoyed this party.

**YOU** don't use as much of Calumet as you do of most other Baking Powders. It has more than ordinary leavening strength. You save about half.

You don't pay a big price for Calumet. It's sold at a moderate price—that represents another saving.

You don't feel uncertain as to results. Baking never fails—because Calumet never fails below the proven standard of "Best by Test."

BEST BY TEST

It possesses the highest quality ever put into a Baking Powder. Contains only such ingredients as have been officially endorsed by United States Food Authorities.

For weeks, for months, it keeps as fresh and full of strength as the day it left the Calumet Factories, the World's Largest, most Sanitary and Modern Baking Powder plants. It is important that you use only straight wheat flour (not self-rising flour) and pure baking powder if you wish to obtain the gluten demanded by sound health.

Calumet Gold Cake Recipe

Yolks of 8 eggs, 1 1/4 cups of granulated sugar, 1/2 cup of water, 1/2 cup of butter, 2 1/4 cups pastry flour, 3 level teaspoons Calumet Baking Powder, 1 tablespoon vanilla. Then mix in the regular way.

## The Same Old Santa Claus Is on the Job as Usual

BY ISMA DOOLY

The same old Santa Claus who has always come at the yuletide to gladden the hearts he knows about, is on the threshold now even as the nation is observing Thanksgiving.

The world is definitely undergoing a period of uncertainty and restlessness, which always follows a war, and this year the condition is more surely and definitely complex even than it was last year. The general advice given people of all elements—the rich as well as the poor—is to be careful. This being careful does not necessarily mean penuriousness or the punishment of the little folks by depriving them of the coming of Santa Claus. It means rather the using of common sense in the kind of things people at large essay to do each year with the laudable, though misled, purpose of making children and the poor happy.

Last year it was estimated that many thousands of dollars were wasted in the "giving" to make certain people happy on Christmas day. Many institutions and many needed families were looked after generously on Christmas with perishable things who, the day after Christmas, did not have fuel or food.

With the uncertainty there is about business and what the world calls "the times," the wish for Atlanta's needy this year is that more time and judgment might accompany the giving, that the gift go farther and do more good, and that there be less indiscriminate giving. For instance, if every individual who observes Christmas, and who takes pleasure in it, could begin now to plan for the giving, and do the purchasing as soon as possible, so many dollars could be saved, and judiciously expended and many more people would be sensibly and happily remembered.

Each year people are asked to do their Christmas shopping early, out of consideration for the men and women who are employed in retail shops. That is a praiseworthy motive, and should be continued, but there are so many other very good reasons why sensible men and women should buy carefully and judiciously.

In the first place, nobody can afford to waste money; again every one should endeavor to get the best for the money spent, and nobody can get the same service in the crowded shop that is possible earlier in the Christmas season. Articles continually exposed, like large stocks of fancy goods, become shop-worn. People, therefore, find themselves compelled to buy spoiled articles, or not to buy any at all if they delay purchasing until the last moment on the Christmas calendar.

## Miss Wright, of Rome, Weds Mr. Johnston, of New York

On Tuesday afternoon at 4 o'clock at the home of the bride's parents, Judge and Mrs. M. R. Wright, on Summerville road, Rome, Ga., Miss Mildred Wright became the bride of Mr. George Franklin Johnston, of New York. The ceremony was performed by Father James A. Horton, pastor of the Holy Trinity church, New York. Mr. Johnston, of New York, was his brother's best man, and the wedding company included a few relatives, including, from Atlanta, Mrs. Bulow Campbell, the bride's aunt, and Mr. Campbell. Mr. and Mrs. Johnston left immediately for Florida, and after an extended wedding journey they will make their home in Tulsa, Okla., where Mr. Johnston is engaged in the oil business. The wedding, while a quiet one, held a coronal interest for friends throughout the state. The bride's family is one of prominence in Georgia, and she is a beautiful young woman, exceptionally accomplished.

## Galli-Curci Will Render Special Numbers Thursday

With two more days before the concert by Mme. Galli-Curci at the Auditorium, indications are that the big house will be filled to capacity by the hour of the recital, 8:15 o'clock Thursday night. Although the demand for seats has surpassed all records for advance sales, there were still a thousand or more tickets left last night in the rack at the Cable Piano company's store. They represent seats in every part of the Auditorium. Mme. Galli-Curci will present a program entirely new, and anything she has given here before, and it will include not only the operatic arias designed to give full play to her astonishing powers of reaching apparently impossible heights, but groups of lovely airs which give her opportunity to reveal her true artistry by delicacy of expression. For Galli-Curci is something more, the leading critics agree, than a singer of flowery trills and sustained "top notes." There is none who can compare with her in such homely ballads as "My Calina," and "Home, Sweet Home," which she sings in beautiful English and with excellent distinction. Mme. Galli-Curci has consented, at the request of many music lovers, to sing the famous "ECHO Song" of Bishop, with a flute obligato by Manuel Berenguer, as one of her principal coloratura numbers. Another will be the "Theme and Variations" by Mozart, in which the voice and flute chase each other through a veritable maze of bird-like notes, rising higher and higher until the limit of even Galli-Curci's voice is reached, and then descending to the lower register. These are two of the great "show pieces" of coloratura sopranos, but there are few singers of today who dare attempt them. The program announced for the Thanksgiving night concert follows: "L'Amour de moi" (Old French); "Quel Ruseletto" (old Italian) (Paradisi); "Comme Per Me Sereno" from "Gonnambula" (Bellini); "ECHO Song" (with flute obligato) (Bishop); "Depuis le Jour" ("L'Enfer") (Chapelier); "Clavelito" (in Spanish) (Valverde); "Rosa d'Elver" (Fontenay); "Sempre Libero" ("Traviata") (Verdi); "Romance" (Widor); "Autumn Leaves" (Samuels); "Maman Berenguer" (Brenard); "The Little Damsel" (Norello); "When Chloris Sleeps" (Samuels); "Theme and Variations" (with flute) (Mozart-Adams).

### SIMPLE WAY TO GET RID OF BLACKHEADS

There is one simple, safe and sure way that never fails to get rid of blackheads and that is to dissolve them. To do this get two ounces of calomel powder from any drug store—sprinkle a little on a hot, wet sponge—rub over the blackheads briskly—wash the parts and you will be surprised how the blackheads have disappeared. Big blackheads, little blackheads, no matter where they are, simply dissolve and disappear, leaving the parts without any mark whatever. Blackheads are simply a mixture of dust and dirt and secretions from the body that form in the pores of the skin. Pinching and squeezing only cause irritation, make large pores and do not get them out after they become hard. The calomel powder and the water simply dissolve the blackheads so they wash right out, leaving the pores free and clean and in their natural condition. Anyone troubled with these unsightly blemishes should certainly try this simple method.—(adv.)

Nelson, who is chairman of the local branch of the society; Miss Hazel Nelson, Mrs. John E. Creed, Mrs. R. A. Byars, Mrs. J. H. Long, Mrs. A. J. Brandon, Mrs. R. M. Burrows, and her guest, Mrs. Smith of Chattanooga, Tenn.; Mrs. F. G. Totts, Mrs. Dan M. Ellis, Mrs. R. E. Wilson, Mrs. N. A. Smith and others. At a very delightful dinner party Sunday when they entertained Captain and Mrs. A. F. Fitzsimmons and Lieutenant J. E. Mendenhall, Captain Fitzsimmons was formerly commanding officer of the Fifth military police company of the Fighting Fifth division, which recently moved to Camp Jackson, South Carolina. Since leaving the service, Captain and Mrs. Fitzsimmons have resided in Atlanta. Colonel and Mrs. Hunter B. Nelson will leave Camp Gordon Wednesday for Gainesville, Ga., where they go to be the guests of Colonel Nelson's old adjutant, Captain Dunbar, for Thanksgiving and the week-end.

**Milk Toast Diet Too Much for Her**

"I doctored for years with only temporary relief. My liver was very bad, after eating I would always have such a fullness in my stomach and my heart would palpitate. I could not eat milk toast without distressing me. Since taking a course of May's Wonderful Remedy, more than a year ago, I can eat anything my appetite desires. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and relieves the inflammation which causes practically all stomach and intestinal ailments, including appendicitis. One dose will convince you of money refunded. Jacob's Pharmacy and druggists everywhere." (adv.)

# POLICE KILL NEGRO IN SAVANNAH BATTLE

Savannah, Ga., November 22.—Henry Moore, 24, negro, is dead, and Daniel Van Wetherin, a white man, is probably fatally wounded as the result of a pitched battle here to night between the police and Moore, who barricaded himself in his home and fought for two hours.

Moore was suspected of boot-legging at a carnival in the neighborhood of his home. Sergeant Gossie attempted to arrest him, when the negro drew a revolver and covered the officer. Moore began to back away when Gossie drew his pistol. An interchange of shots followed as the negro dashed into his home and Police officers were called. A cordon was formed around the house.

By Girl in Atlanta

William M. Blake, a traveling man of Chicago, Ill., was arrested Tuesday night by Detective Jones and Austin, on charges of sending objectionable matter through the mails. It is alleged that Blake has for several years been in correspondence with a young woman in Atlanta, who first wrote to him while he was a soldier in France, and as he appeared at the moment of the time, when many girls in the United States corresponded with soldiers in France, he had never seen, with a view to keeping up the spirits of the men in France. Blake is held for the post-office inspector.

According to charges against the man of Chicago, he had, in the course of their long correspondence, exchanged photographs, but had never met until Monday night, when he came to this city from Chicago, met her and escorted her to a moving picture show.
